

# LAKEVIEW ARRHYTHMIA INSTITUTE

Your heart  
March 18, 2010

We can see things the other hospitals can't.  
*Like your future.*

**Lakeview Regional  
Heart Center**

*Your connection to cardiac care*

The LAKEVIEW REGIONAL MEDICAL CENTER ARRHYTHMIA INSTITUTE leads the region in technology, clinical expertise and safety. The GE INNOVA 3131 offers the most advanced EP technology for the diagnosis and treatment of arrhythmias with the lowest doses of radiation possible. Our highly specialized team led by nationally recognized physicians is focused on providing our patients with the highest quality care and exceptional clinical outcomes within the safest environment.

If you are experiencing difficulty with irregular heartbeats, palpitations, loss of consciousness or dizziness, call us today to learn more about our regionally recognized Arrhythmia Institute. Our Electrophysiologist can perform procedures that can possibly cure arrhythmias such as atrial fibrillation and reduce the need for blood thinners like Coumadin.
